#### Item 2.02. Results of Operations and Financial Condition

On February 5, 2010, Simon Property Group, Inc. (the "Registrant") issued a press release containing information on earnings for the quarter ended December 31, 2009 and other matters. A copy of the press release is attached hereto as Exhibit 99.2 and the information in the press release is incorporated by reference into this report.

The press release and Supplemental Information package attached as Exhibit 99.1 use the non-GAAP financial measure of Funds from Operations ("FFO"). The Supplemental Information package also uses the non-GAAP measure of Net Operating Income ("NOI"). The Registrant considers FFO and NOI key measures of its operating performance that are not specifically defined by accounting principles generally accepted in the United States ("GAAP"). The Registrant believes that FFO and NOI are helpful to investors because they are widely recognized measures of the performance of real estate investment trusts ("REITs") and provide relevant bases for comparison among REITs. The Registrant also uses FFO and NOI internally to measure the operating performance of its portfolio. Reconciliations of net income to FFO on an estimated and historical basis are provided on pages 66 and 73 furnished herewith in Exhibit 99.2. Reconciliations of net income to NOI on a historical basis are provided on page 15 furnished herewith in Exhibit 99.1.

The Registrant is furnishing the information contained herein, including Exhibit 99.2, pursuant to Item 2.02 of Form 8-K promulgated by the Securities and Exchange Commission (the "SEC"). This information shall not be deemed to be "filed" with the SEC or incorporated by reference into any other filing with the SEC.

#### Item 7.01. Regulation FD Disclosure

On February 5, 2010, the Registrant made available additional ownership and operational information concerning the Registrant, Simon Property Group, L.P., and properties owned or managed as of December 31, 2009 in the form of a Supplemental Information package, a copy of which is attached as Exhibit 99.1. The Supplemental Information package is also available upon request as specified therein.

The Registrant is furnishing the information contained herein, including Exhibit 99.1, pursuant to Item 7.01 of Form 8-K promulgated by the SEC. This information shall not be deemed to be "filed" with the SEC or incorporated by reference into any other filing with the SEC.

Reconciliation of Net Income to NOI As of December 31, 2009 (in thousands, except as noted)

Industry practice is to evaluate real estate properties on an unleveraged basis. Net Operating Income ("NOI") is a standard industry performance measure which is defined as operating income plus depreciation and amortization, both calculated in accordance with accounting principles generally accepted in the United States ("GAAP"). We consider NOI to be a key measure of our operating performance that is not specifically defined by GAAP. We believe that NOI is helpful to investors because it is a widely recognized measure of the performance of REITs and provides a relevant basis for comparison among REITs. We also use NOI internally to measure the operating performance of our portfolio.

However, you should understand that NOI:

- · does not represent cash flow from operations as defined by GAAP,
- should not be considered as an alternative to net income determined in accordance with GAAP as a measure of operating performance,
- · is not an alternative to cash flows as a measure of liquidity, and
- is not indicative of cash flows from operating, investing and financing activities.

The Reconciliation of Net Income to NOI provides net income, which we believe is the most directly comparable GAAP financial measure, and reconciles the amounts to "Total NOI of the Simon Group Portfolio." This schedule also provides the change in NOI of regional malls and Premium Outlet Centers that are comparable properties for the twelve months ended December 31, 2009.

Prime Outlets is an owner, manager, operator and developer of outlet centers in the U.S. The Prime Outlets portfolio includes 22 outlet centers.

### **Financing**

On December 8, 2009, the Company announced that SPGLP entered into a new unsecured corporate credit facility providing an initial revolving borrowing capacity of \$3.565 billion, an increase to the prior \$3.5 billion revolver. The new facility contains an accordion feature allowing borrowing capacity to increase to as much as \$4.0 billion and will mature on March 31, 2013. The base interest rate on the new facility is LIBOR plus 210 basis points, and it includes a money market competitive bid option program that allows SPGLP to hold auctions at lower pricing for short-term borrowings.

As of December 31, 2009, the Company had approximately \$4.3 billion of cash on hand, including its share of joint venture cash, and an additional \$3.1 billion of available capacity on SPGLP's corporate credit facility.

During January of 2010, the following capital market activities were completed:

- On January 19th, the Company announced the sale by SPGLP of \$2.25 billion of senior unsecured notes in an underwritten public offering. Net proceeds from the offering were used to fund SPGLP's purchase of senior unsecured notes tendered in an any and all cash tender offer launched on January 12th. The notes offering received exceptionally strong interest with book orders totaling \$10 billion. The notes offering consisted of:
  - \$400 million of 4.20% notes due 2015; priced at 99.78% of the principal amount to yield 4.25% to maturity
  - \$1.25 billion of 5.65% notes due 2020; priced at 99.62% of the principal amount to yield 5.70% to maturity
  - \$600 million of 6.75% notes due 2040; priced at 99.44% of the principal amount to yield 6.79% to maturity

The weighted average duration of the notes offering is 14.4 years and the weighted average coupon is 5.69%.

• On January 20th, SPGLP's tender offer expired and on the following day, the Company announced that approximately \$2.285 billion of notes were tendered and accepted for purchase. These notes had a weighted average remaining duration of 2.0 years and a weighted average coupon of 5.76%. A \$166 million charge to earnings was recorded in January of 2010 in connection with this transaction.

"This recent capital market activity was well executed," said David Simon. "We believe that it is a testament to our Company's financial strength that we were able to expand the size of our new credit facility while extending the term to 2013, and that we obtained a significant extension of duration of our senior unsecured notes portfolio with no overall increase in our weighted average interest rate through our concurrent tender offer and sale of unsecured notes. With over \$7 billion of available liquidity, we are exceptionally well-positioned."

### Sale of Simon Ivanhoe

The Company and Ivanhoe Cambridge (50/50 partners in Simon Ivanhoe, one of the Company's two European joint venture investment entities) announced today that they have entered into a definitive agreement to sell their interests in Simon Ivanhoe (which owns seven shopping centers located in France and Poland) to Unibail-Rodamco. Simon and Ivanhoe Cambridge are to receive consideration of €715 million for the assets, subject to customary post-closing adjustments. Simon

expects the sale to result in a gain of approximately \$300 million. The transaction is scheduled to close during the first half of 2010, subject to customary closing conditions and regulatory approvals.

Simon and Ivanhoe Cambridge have also agreed to venture with Unibail-Rodamco in the development of five retail projects in the Simon Ivanhoe development pipeline. Simon will own a 25% interest in this pipeline.

### U.S. New Development and Redevelopment

The Company continues construction on the following development projects:

- A 600,000 square foot Phase II expansion of The Domain in Austin, Texas. The expansion will include Dillard's, a Village Road Show theater, Dick's Sporting Goods (opened October 16, 2009), 136,000 square feet of small shops and restaurants, and 78,000 square feet of office space. The Company owns 100% of this project, slated for an opening on February 22, 2010.
- Addition of Nordstrom, Target and 138,000 square feet of small shops at South Shore Plaza in Braintree (Boston), Massachusetts. Nordstrom and the small shops are scheduled to open on March 26, 2010, with Target scheduled to open in October of 2010. The center is 100% owned by the Company.

#### 2010 Guidance

The Company estimates that FFO as adjusted will be within a range of \$5.72 to \$5.87 per diluted share for the year ending December 31, 2010, and diluted net income will be within a range of \$2.58 to \$2.73 per share. FFO as adjusted excludes the impact of a \$166 million charge (\$0.47 per share) in the first quarter related to SPGLP's January tender offer. After giving effect to this charge, the Company expects 2010 FFO per diluted share to be within a range of \$5.25 to \$5.40.

This guidance is based upon the following assumptions:

- Completion of the Prime Outlets acquisition in spring 2010
- Completion of the sale of interest in Simon Ivanhoe during the first half of 2010
- No other acquisition or disposition activity
- An interest rate environment consistent with the current forward curve for LIBOR and U.S.
   Treasuries
- Comparable property NOI growth for the Company's core domestic portfolios of 1 to 1.5%

This guidance is a forward-looking statement and is subject to the risks and other factors described elsewhere in this release.

The following table provides the reconciliation of the range of estimated diluted net income available to common stockholders per share to estimated diluted FFO per share.

## SIMON Footnotes to Reconciliation of Consolidated Net Income to FFO Unaudited

#### Notes:

(1) The Company considers FFO a key measure of its operating performance that is not specifically defined by GAAP and believes that FFO is helpful to investors because it is a widely recognized measure of the performance of REITs and provides a relevant basis for comparison among REITs. The Company also uses this measure internally to measure the operating performance of the portfolio. The Company's computation of FFO may not be comparable to FFO reported by other REITs.

The Company determines FFO based upon the definition set forth by the National Association of Real Estate Investment Trusts ("NAREIT"). The Company determines FFO to be our share of consolidated net income computed in accordance with GAAP, excluding real estate related depreciation and amortization, excluding gains and losses from extraordinary items, excluding gains and losses from the sales of previously depreciated operating properties, plus the allocable portion of FFO of unconsolidated joint ventures based upon economic ownership interest, and all determined on a consistent basis in accordance with GAAP.

The Company has adopted NAREIT's clarification of the definition of FFO that requires it to include the effects of nonrecurring items not classified as extraordinary, cumulative effect of accounting changes, or a gain or loss resulting from the sale of previously depreciated operating properties. We include in FFO gains and losses realized from the sale of land, outlot buildings, marketable and non-marketable securities, and investment holdings of non-retail real estate. However, you should understand that FFO does not represent cash flow from operations as defined by GAAP, should not be considered as an alternative to net income determined in accordance with GAAP as a measure of operating performance, and is not an alternative to cash flows as a measure of liquidity.
